Description	Hours	Rate	Amount
Raul - DRC(Use of Certificates) September 2022_Ely	1	\$500.00	\$500.00
9/1/22 - Site Visit - Travel Milage ( 75640 - 75884 )	244	\$0.56	\$136.64
WWTP - SCADA panel display was not working, computer was somehow reset. We took out the computer and mailed it to SKM for reprogramming. The computer was out for about ten days and it was returned. It is now back up and running. The basin blower had been failing for high heat, we trouble shot them and found that the issue is with the air filters. They were extremely dirty. We cleaned them out and immediately it made a difference. It is now SOP to alternate the blowers every week and to clean the filters each time. We also ordered new filters and replaced the old ones.	11	\$50.00	\$550.00
9/13/22 - Site Visit - Travel Milage ( 98138 - 98380 )	242	\$0.56	\$135.52
WWTP - Process control training: Influent flow, BOD, TSS, DO, RAS, WAS and MCRT.	10	\$50.00	\$500.00
9/24/22 - Site Visit - Travel Milage ( 98445 - 98688 )	243	\$0.56	\$136.08
WWTP - SCADA not working, new internet service was installed and was not configured for the SCADA system. Internet provider configured the router and is now working.	6	\$50.00	\$300.00

9/24/22 - Site Visit - Travel Milage ( 98709 - 9898952 )	243	\$0.56	\$136.08
Laboratory - Did monthly internal lab audit. Did IDC (Initial Demonstration of Capabilities) for Julie Curtis, she did outstanding and is now signed off to run the Coliform test for water samples.	4	\$50.00	\$200.00
Water - Review water sample schedule, we are up to date on all sampling for the year. We were notified that the laboratory that we use will no longer come down to pick up samples. We are looking for a new laboratory to do our testing.	2	\$50.00	\$100.00
WWTP - Process control training: Settleometer test and SVI (Sludge Volume Index), these test gives us indication of how well the treatment process is working in the plant.	4	\$50.00	\$200.00
Administration: Reviewed and worked on, Lead and Copper report for NDEP.	3	\$50.00	\$150.00
